"End User License Agreement (EULA) for Radarsat-2 Product/s" The agreement, defining the right of use of Radarsat-2 Products/s, to be signed and accepted by the Customer and/or Licensee/s at the moment of the order. If the Customer purchases Radarsat-2 Product/s for its own use, he will also be the Licensee/s

"Licensee/s or User/s" or "End User/s": The natural or legal persons using the acquired Product/s and accepting the conditions of these Standard Terms and the relevant EULA.

"Parties": e-GEOS and the Customer jointly

"Product/s: Radarsat-1"

"Product/s: Radarsat-2"

"Product/s": the Product/s Radarsat-1 and the Product/s Radarsat-2 jointly

"Satellite/Ground Station Operator": the entity owning/operating a satellite: for Radarsat-1 the Canadian Space Agency "CSA", for Radarsat-2 MacDonald Dettwiler and Associates Ltd. "MDA".

2. Operational Procedures

2.1 Ordering. All orders shall be made by fax or letter post or on-line, when available, using the appropriate e-GEOS Order Forms. e-GEOS shall only accept orders that have been completely and correctly filled out. If the Customer attaches to the e-GEOS Order Form any other purchase order containing contrary terms and conditions, these terms shall not have any legal effect and shall not be binding on e-GEOS.

The selection of the scenes to be ordered shall be effected directly by the Customer, under its own responsibility, therefore, Product/s rejections based on possible mistakes in ordering from the Customer will not be accepted by e-GEOS. An order confirmation shall be issued by e-GEOS and dispatched to the Customer after the relevant request has been forwarded to the Satellite/Ground Station Operator. Should any of the Product/s ordered be unobtainable, for whatever reason (including, but not limited to, satellite or ground segment failures, or other actions of the Satellite/Ground Station Operator), e-GEOS shall not be held liable for any losses incurred due to the unavailability of the Product/s. If an invoice has already been issued, e-GEOS shall issue a credit note for the unobtainable Product/s only. After the order confirmation has been issued by e-GEOS, the order cannot be cancelled or modified by the Customer. A programming request submitted on a e-GEOS order form shall be treated as an order and shall therefore be subject to these Standard Terms.

2.2 Delivery. Product/s are delivered and made available to the Customer at "Ex-Works Conditions - EXW", according to Incoterms 2000.

Product/s are delivered in electronic format, on the media indicated by the Customer in the e-GEOS order form. e-GEOS shall fulfill its obligations of delivery by making available the Product/s at its premises. The Customer shall be responsible for and shall pay all shipping, freight, and insurance charges, including expenses for

export licenses, if any. Any such costs, expenses or charges paid in advance by e-GEOS shall be charged to the Customer in the invoices for the relevant order. e-GEOS may require the Customer to pay such charges in advance. All risk of loss of or damage to the Product/s shall pass to the Customer at the time of delivery of the Product/s. e-GEOS shall use all reasonable efforts to deliver Product/s as quickly as possible.

Unless expressly agreed to the contrary in writing, e-GEOS shall make incremental/partial deliveries of the Customer's orders, to be separately invoiced and paid for when due. Delay in delivery of any installment shall not relieve the Customer of its obligation.

2.3 Invoicing. The invoices for each order will be issued by e-GEOS when the Product/s is made available for delivery.

All invoices will show the e-GEOS order number, a unique scene identifier, the Product/s code, if available, the currency, as specified in the e-GEOS Official Price List, and the shipping charges, if any.

Unless otherwise explicitly requested by the Customer, all the invoices will be sent to the same address indicated by the Customer in the e-GEOS Order Form.

3. Financial Conditions.

3.1 Prices.

The price for the ordered Product/s shall be that set out in the e-GEOS Official Price List in force on the date of the issue of the order confirmation by e-GEOS. e-GEOS Official Price List published on the e-GEOS web site, www.e-GEOS.it, is to be considered the only valid version.

The prices listed in the e-GEOS Official Price List exclude any taxes, customs duties, shipment charges and insurance fees that may be applicable, and for which the Customer shall be responsible at all times.

Price to the Customer does not include taxes of any nature, custom duties, or any other cost, expense or fee which may be applicable to, or be due in connection with, any transaction hereunder ("Taxes and Costs"). The Customer shall pay those Taxes and Costs invoiced by e-GEOS or will supply appropriate tax exemption certificates in a form satisfactory to e-GEOS.

Shipment charges shall depend upon the weight of each consigned package and the country of delivery and shall be added to the commercial invoice by e-GEOS as given in the e-GEOS Official Price List.

3.2 Payments. All orders must be prepaid unless otherwise accepted and communicated by e-GEOS. Where e-GEOS permits payment within thirty (30) calendar days from the date of the invoice, an invoice shall be considered overdue if notification of the payment has not been received by close of business on the due date.

Delay in payment obligations on the part of Customer shall empower e-GEOS, under its sole option, to charge interest from the first day of delay up to the point of payment of such amount. Such interest shall be calculated,

a) at a fixed rate of BBA (British Banker's Association) LIBOR (London Inter-Bank Offered Rate) 3 months on the US Dollar (USD), in the event amounts due are in USD currency, or
b) at a fixed rate of FBE (Fédération Bancaire Européenne) EURIBOR (Euro Interbank Offered Rate) 3 months on the EURO, in the event amounts due are in EURO currency.
as quoted by REUTERS, of the first working day of the calendar quarter on which payment was due, plus 500 (five -hundred/00) basis points, on the basis of a 360 days year.

In the event such payment delay shall continue in time, such interest will take into consideration the dynamical ongoing changes of such

interest rate, according to the performance of financial markets, by means of calculating interest by using the up-dated BBA LIBOR 3 months rates on the USD, or the up-dated EURIBOR 3 months rates on the EURO, as the case may be, from the first day of each subsequent calendar quarter, as quoted by REUTERS.

In the event of an invoice remaining unpaid for an extended period of time (the duration of this period will depend on the circumstances of the late payment), e-GEOS reserves the right to apply one or more of the following remedies:

- to place Customer orders on hold — any outstanding orders, or any orders received subsequently shall not be processed until all overdue payments have been made;
- to not accept any future orders by the Customer;
- to suspend the license to use of the Product/s not yet paid and/or to suspend the right to develop enhanced products from the same Product/s, as per the signed and accepted EULA for the Product/s and/or to require the return of the Product/s not yet paid at Customer expenses and responsibility;
- any other remedies provided for by these Standard Terms and/or by the relevant EULA and the applicable law.

The Customer shall pay the ordered Product/s in the currency indicated in the applicable e-GEOS Official Price List. Unless otherwise agreed by e-GEOS all payments shall be made through international electronic bank transfer only. No cheques will be accepted. The Customer shall indicate the e-GEOS invoice to which each payment refers.

4. Term-Termination.

These Standard Terms shall become effective on the date on which they are signed by the Customer and/or Licensee/s and shall continue to be in force until terminated as provided herein. e-GEOS and the Customer and/or Licensee/s may terminate these Standard Terms at any time by written notice given to the other Party at least thirty (30) days prior to the effective date of such termination. In the event of any breach of the provisions of these Standard Terms, the Party not in default shall be entitled to terminate these Standard Terms by a fifteen day written notice to the other Party. Within ten (10) days from termination of this Standard Terms, the Customer shall return all copies of all or any portion of the Product/s covered by these Standard Terms.

5. Ownership

The Customer acknowledges that all Product/s are purchased on a license of use basis and that the ownership will remain in Satellite/Ground Station Operator as specified in the signed and accepted EULAs for Radarsat-1&2 Product/s.

6. Governing Law and Jurisdiction.

These Standard Terms shall be construed and enforced in accordance with the laws of Italy. The Parties hereto agree that the Italian Courts shall have exclusive jurisdiction for any dispute or controversy concerning, arising out or connected with this Standard Terms and that, within such jurisdiction, the Courts of Rome shall be competent.

7. Miscellaneous.

7.1 e-GEOS shall not be responsible for any failure/delay to perform due to unforeseen circumstances and/or to causes beyond e-GEOS' reasonable control and/or Force Majeure events, including but not limited to acts of God, war, riot, embargoes, acts of governmental/civil/ or military authorities, fire, floods, adverse weather conditions, accidents, strikes, or shortages of transportation, facilities, fuel, energy, labor, or materials. In the event of any such

delay e-GEOS may defer the delivery date for a period equal to the time of such delay, or cancel the relevant order.

7.2 These Standard Terms and the EULA constitute the entire understanding and contract between e-GEOS and the Customer and supersede any and all prior and contemporaneous, oral or written representations, communications, understandings, and agreements with respect to the subject matter hereof.

7.3 The Customer shall be responsible for payment of any tax (including surcharges and penalties), fees, duties or levies on the Product/s, or arising out or imposed by reason of this Standard Terms.

7.4 The Parties shall perform these Standard Terms in good faith and diligently in conformity with the highest ethical standards as acknowledged to be "best practice" for international business. The Customer declares and represents to be bound by the principles set forth in the e-GEOS Code of Ethics reported on the e-GEOS web site www.e-GEOS.it.

7.5 These Standard Terms may be modified by e-GEOS at any time and the Customer acknowledges that the only valid version is to be considered the one published on the e-GEOS web site, www.e-GEOS.it.

7.6 The Customer shall be responsible for obtaining any and all required governmental authorizations, including but not limited to any export or import licenses, and foreign exchange permits.

(4) The failure of MDA to insist upon strict performance of any of the terms and conditions of this License will not be deemed a waiver of any rights or remedies that MDA may have and will not be deemed a waiver of any subsequent default of the terms and conditions of this License. (5) Neither this License nor any of the rights or obligations hereunder may be assigned or transferred by LICENSEE without the prior written consent of MDA. This restriction on assignment or transfer will apply to assignments or transfers by operation of law, as well as by contract, merger or consolidation. (7) Upon notice, MDA or MDA inspection staff acceptable to Licensee may inspect LICENSEE's records, accounts and books relating to the use of the Product to ensure that the Product is being used in accordance with this License. (8) LICENSEE acknowledges that any actual or threatened breach of Section 2 would likely cause MDA irreparable harm that could not be fully remedied by monetary damages. So, LICENSEE agrees that MDA will have the right, in addition to any other remedy available to it, to seek injunctive or other equitable relief from a court of competent jurisdiction, without proof of actual damage, as may be necessary to prevent such breach.

- 10. PERMITTED USES:** In accordance with the Grant of License set out in Section 2 above, LICENSEE agrees and understands that it MAY:
- make an unlimited number of soft and hard copies of the Product for the internal use of LICENSEE and internal backup purposes only;
 - provide the Product to LICENSEE's employees and/or contractors or consultants directly related to LICENSEE's internal use of the Product. The contractors or consultants are under a duty of confidentiality no less restrictive than LICENSEE's duty hereunder. The contractors or consultants must not retain the Product or copies thereof after completion of LICENSEE's internal project;
 - store, post or process the Product in a system that is not accessible by the public through the use of sufficient information assurance measures;

 - subject to the provisions set out in Section 11 - develop, reproduce and distribute any Value Added Product (as defined in Section 12 below) generated from the Product by the LICENSEE.
- 11. PROHIBITED USES:** Without limiting the generality of the foregoing, LICENSEE agrees and understands that it MAY NOT:
- sell, lease, rent, sub-license, or transfer the Product, in any other manner whatsoever;
 - reverse engineer, disassemble, decompile or adapt the Product;
 - post the Product to Internet web sites in a non secure format that allows manipulation of the Product;
 - alter or remove any Copyright notice or proprietary legend contained in or on the Product;
 - on its own, or permit any third party to, release or publish hardcopies of SLC Data in any beam mode or post such SLC Data on any publicly accessible network;
 - further process, or permit any third party to further process SLC Data to generate any product with (a) an impulse response resolution in either range or azimuth finer than (i) 2.0 metres for single- or dual-polarization modes, (ii) 6.0 metres for quad-polarization beam modes, where resolution is measured horizontally in the ground plane;

- g. if applicable, further process, or permit any third party to further process Spotlight beam mode to generate any product with an impulse response resolution finer than 2.0 metres in range and 0.74 meters in azimuth, where resolution is measured horizontally in the ground plane; and
- h. use, or permit any third party to generate a Value Added Product using interferometric processing techniques from at least one scene of RADARSAT-2 SLC Data where the interval of collection is less than 24 days. Such Value Added Products include interferograms, coherent change detection products, or interferometric digital elevation models.

12. DEFINITIONS: In this License the following terms will have the following meanings:

“Data Product” means a detected radar image obtained by the processing of SLC Data to include information such as geo-referencing, radiometric corrections and multi-looking. Data Products do not contain or retain phase information.

“Derived Image Product” or **“DIP”** means a product derived from SLC Data or Data Products that still contain all or substantially all of the pixel structure and information of the original SLC Data or Data Products. Derived Image Products do not contain or retain phase information. Derived Image Products include without limitation:

- any sub-sampled scenes, sub-scenes and imagerettes
- any products enhanced by basic image processing techniques including, without limitation, speckle-filtering, application of Look Up Table (LUT), histogram equalization, contrast stretching
- coloured composite image using multiple RADARSAT-2 scenes or sub-scenes
- non-orthorectified mosaics with or without a simple layout
- orthorectified scenes or sub-scenes derived from a Digital Terrain Elevation Data (DTED) Level 0 or 1 or 2 Digital Elevation Model (DEM) with or without a simple layout
- orthorectified mosaics derived from a DTED Level 0 or 1 or 2 DEM with or without a simple layout
- georeferenced radar maps which include, without limitation, index maps, mapsheet references, layout embedded names
- geocoded radar maps which include, without limitation, index maps, mapsheet references, layout embedded names
- orthorectified radar maps which include, without limitation, index maps, mapsheet references, layout embedded names
- any orthorectified products performed with a DTED Level 0 or 1 or 2 DEM

“Single-Look Complex Data” or **“SLC Data”** means a formatted raw data product where signal data has been converted to a computer readable structure containing target phase and amplitude information, and which has undergone processing that includes range and azimuth compression and Doppler focusing while retaining phase information.

“Value Added Product” or **“VAP”** means any products that (a) are processed SLC Data using interferometric processing techniques, such as interferograms, coherent change detection products or interferometric digital elevation models; or (b) include a material addition of other external information or have undergone significant enhancement, but do not retain any pixels of the original SLC Data, Data Products or Derived Image Products. Value Added Products do not contain or retain phase information.

13. COPYRIGHT: The following copyright notice must be conspicuously displayed alongside the Product, or any portion thereof: “RADARSAT-2 Data and Products © MacDONALD, DETTWILER AND ASSOCIATES LTD.
